

Projects Funded In Georgia

University of Georgia

Pre-1995

Equine Acute Laminitis

Effects Of Vasoactive Mediators And Serotonergic Antagonist In Development Of Laminitis

1996 Expression Of Vasoactive, Proinflammatory And Prothrombotic Genes In Acute Laminitis

1999 Pathogenesis Of Vesicular Stomatitis In Horses

2002 Functional Analyses Of Equine Laminar Arteries

2002 Equine Genes, Microarrays And Responses To Gram-Positive Toxins

2003 Ischemia-Reperfusion Injury In Equine Laminar Arteries

2004 Vaccine Potential Of A Riboflavin-Requiring Strain Of R Equi

2004 Inhibition Of Endotoxin With Adenosine Receptor Agonists

2005 Use Of Microarrays To Characterize Endotoxemia In Vivo

2007 Targeting 5-HT In Equine Laminitis

2007 Leukocyte & Vascular Function In Endotoxemia & Laminitis

2009 Hydrocortisone Replacement Therapy In Septic Foals

2012 Liposomal Gentamicin For The Treatment Of R Equi

2012 Vitamin D And Innate Immunity In The Horse

2016 Fitness And Persistence And Of Drug Resistant R Equi

2018 Epidemiology Of Drug-Resistant R Equi At Horse Farms

2021 Environmental Origins Of Equine Antimicrobial Resistance

2022 Fentanyl Matrix Patches In Horses

2022 Influence Of Vitamin D And Cortisol In R. Equi Infection
