

STALLION STATISTICS SEEKING DURABILITY, SOUNDNESS

Accompanying is an ninth annual listing of stallions by two criteria as developed by the Durability Committee of the Welfare and Safety of the Racehorse Summits underwritten by The Jockey Club and Grayson-Jockey Club Research Foundation. The aim is to highlight stallions which are commercially viable AND produce progeny statistics which would tend to indicate above average performance in two areas----average number of starts per starter and percentage of foals which get to the races.

To qualify for the lists, a stallion must have ranked within the first 200 sires by progeny earnings for the calendar year 2016. This assures a modicum of success and relevance to the commercial breeding and sales market. For purposes of this presentation, we have rearranged that population by the two criteria stated and for each list have included the top one-half (100 stallions) of the original population of 200 by earnings.

Although stallions qualify for these lists on the basis of 2016 progeny earnings alone, other statistics given here are lifetime through Dec. 31, 2016. (All Northern Hemisphere earnings, except from Japan, are included in these statistics, which were provided by The Jockey Club Information Systems.) The average of the breed in recent crops has been a career of around

2016 Sires by Lifetime Starts per Starter

Rank	Stallion	YOB	Sire	Foals of RA	2016 Earnings	Starts/ Starter
1	Mutakddim	1991	Seeking the Gold	797	\$1,306,510	23.91

20	Elusive Quality	1993	Gone West	1407	\$3,864,885	80.74%

19 starts per starter. Thus, we see that only a minority of the top 200 stallions in earnings reach this average. The average of the breed insofar as percentage of horses that reach the races is around 70 percent, so that the leaders in that category are seen to be well above average.

The underlying premise of these statistics, and of the Durability Committee, is that the national reduction in average starts per starter might be seen as an indication of a decrease in durability of the breed.

The average starts per year for North American starters have decreased, from about 11 in 1960 to about 6 in recent years. It has been under 7 since the year 2000. It is understood that the average number of starts can be a function of many elements, some management based. For example, the salvage value of highly fashionably bred runners as breeding animals often discourages continuing to race a young horse once any problem develops.

We also understand that no statistical presentation can serve as a single indicator of success. The trade media for years have published sire statistics based on earnings, but also have provided a plethora of other measures, indices, percentages of stakes winners, etc. In that vein, it is hoped that the accompanying statistics provide yet another kind of insight into contemporary stallions' progeny, whether an individual stallion is seen as a candidate to breed to or as the sire of weanlings, yearlings, two-year-olds, or broodmares.

Older Stakes Winners

Following is a simple ranking of sires of 2016 by their number of stakes winners four years old and upward, with additional recognition of their graded stakes winners of those ages last year.

For this list, there was no requirement concerning progeny earnings. It will be noted, however, that the leaders on this list are also familiar names from various trade media lists arranged by more fashion-driven criteria.

Top 2016 Sires of Stakes Winners 4 Years Old & Up

Rank	Sire	2016 Stakes Winners 4 & Up	Graded Stakes Winners 4 & Up

SFC Special Friends of Grayson

We wish to recognize donors whose generosity has created profound impact on the Foundation over the years and has been of extraordinary benefit to the horse.

The Robert J. Kleberg, Jr. and
Helen C. Kleberg Foundation
Paul Mellon

The Oxley Foundation
William Stamps Farish Fund

Rokeby Circle Members

In honor of the generosity to the Foundation by the late Paul Mellon, Grayson-Jockey Club designates inclusion in the Rokeby Circle for those donors/members at the \$10,000 plus level within the year. The honor is named for Rokeby Farm, Mr. Mellon's estate in Virginia. Current members as of January 2017:
