## Projects Funded In Washington

### Washington State University

#### *Pre-1995*

Evaluation Of Stallion Sperm Survival & Capacitation In Coculture With Mare Oviduct Cells

Quantitating Relationship To Exercise Duration, Intensity In Normal And Anhidrotic Horses

Sub-unit Vaccine For Equine Infectious Anemia

Effects Of Alterations In Hoof Angle & Mediolateral Hoof Balance On Locomotor Forces

The Interrelationships Between Locomotor Forces & Physical Properties Of Track Surfaces

1995 Prevention Of Rhodococcus Equi Pneumonia: Antigen Targeted Immunization

1995 Cytokine Enhancement Of Equine Immunity

1997 Pulmonary Immunity To Rhodococcus Equi

1997 The Effect Of Changes In The Dynamic Properties Of The Track On Equine Locomotion

1999 Effects Of Toe Grabs On The Locomotor Patterns Of Galloping Horses

2000 Pathogenesis Of Equine Protozoal Myeloencephalitis

2001 Excitatory And Inhibitory Neuromuscular Transmission In The Horse Cecum

2003 IL-12 As An Adjuvant In A DNA Vaccine For Rhodococcal Pneumonia

2009 Mesenchymal Stem Cell Treatment

2011 Determinants Of Immune Protection Against Babesia Equi

2015 Mitigating EIPH If Race Day Medication Is Banned

2017 Is EIPH A Consequence Of High Left Atrial Pressures?
